WHY ALUMA

PRACTITIONER-INFORMED

Direct professional experience in mental health, healthcare, legal services, hospice, victim services, and community-based human services.

HUMAN-CENTERED

Considers both the systems delivering public programs and the lived experience of the people those programs serve.

INTERDISCIPLINARY

Experience across human services, healthcare, legal environments, education, technology, and organizational systems.

ETHICS-FOCUSED

Expertise in professional judgment, ethical decision-making, documentation, responsible technology use, and systems affecting vulnerable populations.

CONTRACTING & PARTNERSHIPS

Available for direct professional-services engagements and subcontracting partnerships. Aluma can support defined workstreams in community engagement, qualitative research, human-services subject matter expertise, training, facilitation, and program evaluation.
